

ABOUT IAPMO

The International Association of Plumbing and Mechanical Officials has been protecting the public's health and safety for more than eighty years by working in concert with government and industry to implement comprehensive plumbing and mechanical systems around the world.

As a membership-based association, IAPMO is proud to utilize an open consensus process in the development of our flagship *Uniform Plumbing Code*® (UPC®) and *Uniform Mechanical Code*® (UMC®). These codes are established through scientific research, debate, and analysis, strengthening our position at the forefront of the plumbing and mechanical industries.

The IAPMO Group is a complete service organization, providing code development assistance, industry-leading education, and a manufacturer-preferred quality assurance program. Each component of the IAPMO Group works toward our ultimate goal of protecting the health of people everywhere.

ABOUT WORLD PLUMBING COUNCIL

The mission of the World Plumbing Council is to unite the world plumbing industry to safeguard and protect the environment and the health of nations, for the benefit of all.

- To develop and promote the image and standards of the Plumbing Industry worldwide.
- To encourage and facilitate the exchange of information, ideas and technology between Plumbing Industry Organizations and individuals worldwide.
- To promote and assist in Plumbing Industry Education and Training, recognizing the need for appropriate standards and their international recognition.
- To create an awareness of the Plumbing Industry's role in protecting the environment by providing safe fresh water and sanitation through proper management, care, reuse, and conservation of natural resources.
- To provide and share information regarding research projects and technology that may be applicable to the Plumbing Industry and the people they serve.

Search IAPMO on www.youtube.com to view video excerpts from the last Emerging Technology Symposium.

We are continually seeking new sponsors, supporters, and emerging experts. How to contact us: Call Maria Sol Alba 708-995-3005 or email: sol.alba@iapmo.org

You are invited to attend the INTERNATIONAL EMERGING TECHNOLOGY SYMPOSIUM

MAY 1 – 2, 2012
WASHINGTON D.C.

MARRIOTT BETHESDA
NORTH HOTEL

Co-Convened by

You won't want to miss this extraordinary opportunity

There is no other occasion where you will be able to meet – all at once and in one place – so many well-known experts in the fields of water and energy efficiency.

These experts will expose you to emerging products and practices and you will witness them exchange views on new trends in the industry. You will be able to hear ideas and approaches about emerging technologies coming to market; learn about innovative green plumbing and mechanical concepts; view presentations; and engage in timely discussions on how the water utility, manufacturing, engineering and trade industries have found solutions through emerging technologies in the water efficiency, plumbing and mechanical industries.

Sponsors, presenters, and panelists participating in this symposium represent a diverse body of knowledge in the fields of: water quality, sanitation and health, water reuse, water and embedded energy, HVAC, solar, geothermal and other renewable technologies, fat, oil and grease (FOG) discharge mitigation, and even topics raised by you and other audience participants during the symposium.

If you view the 2010 proceedings, you won't want to miss this one!

This 2012 symposium is a highly anticipated reprise of the 2008 and 2010 symposiums. To view video excerpts from these symposiums, search IAPMO on www.youtube.com.

There are three ways to secure your seat right now!

1. Complete this form and FAX it to:
IAPMO and WPC
2012 Emerging Technology Symposium
Fax number: 909-472-4220
2. Complete this form and MAIL it to:
IAPMO and WPC
2012 Emerging Technology Symposium
Address: 4755 E. Philadelphia St.
Ontario, CA 91761
3. Complete this form ONLINE:
